COLEFORD BRICK & TILE

PROPERTY ENHANCEMENT USING GENUINE HANDMADE PRODUCT

NEW
PRODUCT

The Coleford Cobble Paver has been designed to recreate an individual 100 x 100mm cobble. To make the handling and laying process as efficient as possible two 100mm cobbles have been linked together to form a profiled paver. To increase the laying patterns available, the centre channel in the paver can be used as a cutting guide to create single cobbles.

COLEFORD CLAY COBBLES

The 'Cobble Paver' a new addition to the Coleford Brick & Tile landscaping range.

Utilizing the same clay and manufacturing techniques as our facing bricks and will therefore provide unequalled durability and unsurpassed visual satisfaction. The Cobble paver is produced in a standard size of 200 x 100 x 50mm, however, bespoke sizes are available to order. The Cobble paver will be available in all our distinctive colours, (the most popular paver colours shown below), hand blending is also available to extend the colours even further.
