

courtyard^{cobble}

Re-create the traditional with our cobble effect paving

A simple but effective method whereby the traditional cobble paved area is re-created using a standard size slab format.

Three variations - Straight cobble, Cobble radius and the Cobble treeplanter provide numerous opportunities to produce interesting patio features along with localised planting points within larger paved areas.

Size mm (nominal)	No./sq metre
450 x 450 x 38	4.94

Straight cobble

Cobble radius

Treeplanter

Brick centre

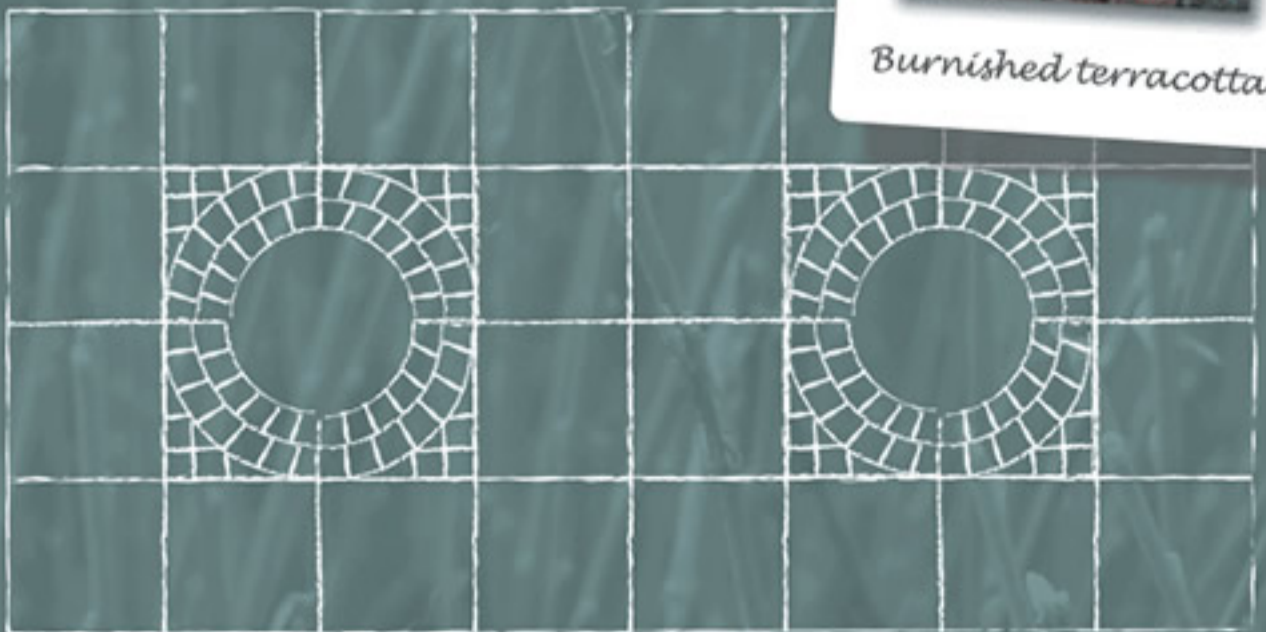

Burnished terracotta

Pennant grey

Autumn brown

With a little thought and patience, some quite breathtaking patio designs can be achieved.

Combining one or more of the Cobble designs or perhaps used as an accent feature with Rustic or Yoredale.
