

# hexagonal <sup>rustic</sup>

eyecatching & effective variation on the normal paving slab

Hexagonal paving offers an eyecatching but effective variation on the standard square or rectangular format. With the riven finish and complimentary colours, this slab creates that distinctive departure from the normal.

NB. The half Hexagonal may be used in conjunction with the full slab to make squaring of areas that much easier

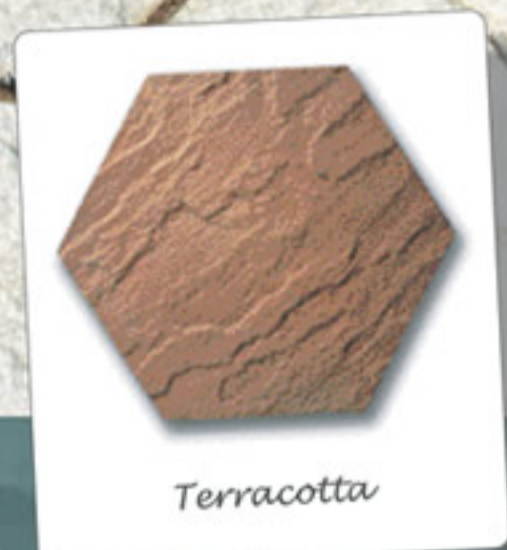

Size mm (nominal)	No./sq metre
450 x 450 x 38	4.94
450 x 225 x 38	9.88

Natural grey

Cotswold buff

Terracotta

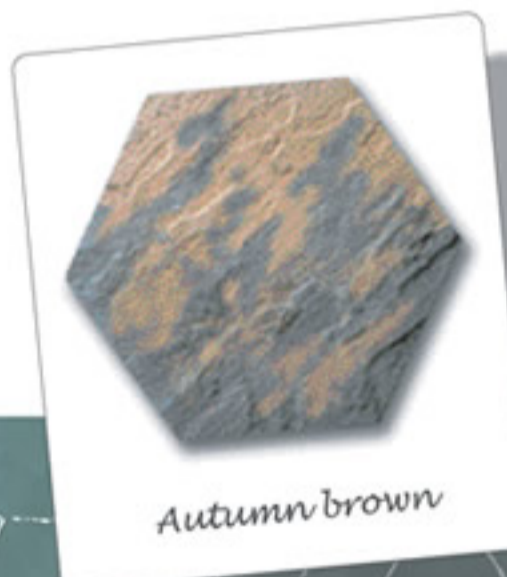

Charcoal

Burnished terracotta

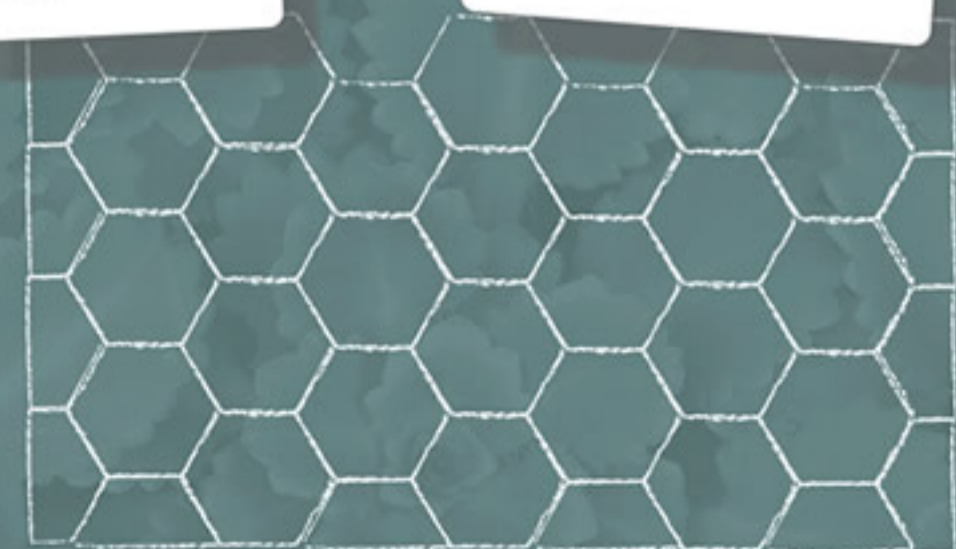

Weathered cotswold

Autumn brown

Half slabs

With a little imagination and the combination of both full and half hexagonal slabs numerous patterns both simple and complex can be created.
