

raglanstone^{walling}

Create a random effect stone wall with easy to assemble pieces

Raglanstone recreates the look and texture of random walling stone, but has been developed so that it is quick and easy to assemble.

Each block face gives the effect of individual pieces of stone walling which, when laid form a continuous random stone appearance. Half blocks are also available to facilitate half bonding and eliminate un-necessary cutting, also both full and half blocks have return end details. To complete the stone wall effect a soldier course coping stone is available again replicating a random effect.

Size mm (nominal)	No./sq metre
Full block: 450 x 140 x 100	15.87
Half block: 300 x 140 x 100	23.81
